

Yidnekachew Bantrga

I am a software engineering student in Wolkite university.

EDUCATION

Wolkite University, Wolkite Ethiopia — Bachelor

OCTOBER-2019 - present

SOFTWARE ENGINEERING

A Member of the university ICT incubation center project and represent the wolkite university at the 2021 Ethiopian collegiate programming contest and ranked 13 out of 75 teams of the contest, GPA 3.7

ALX Software Engineering, online course

FEB-2022 - present

In this program i get some important knowledge such us: low level programming with c, higher level programming with python and some system engineering course shell basics, permission, redirection

PROJECTS

Airline Reservation system — 2022

It is a course project to understand Object oriented programming in Java. We worked as a team of Three and we implemented a console application which is used to reserve and cancel an airline ticket for the customer and it enables the system administrator to add, delete and update an airline ticket. After we learned Advanced java we improved this project by building a GUI using javafx.

Here is the github link

https://github.com/Yidne21/OOP-Project-Airline_reservation_system

Clearance Management system-June - 2022(in progress)

The university Ict incubation project and it is planned to finish the project in one and half years. We started the project as a team of four along with two advisors and we planned to implement the project using MERN stack.

SKILLS

C, C++, java, javascript, React, python, MYSQL, MongoDB, git and github.

Certifications

Red Hat App Development I
(in java EE)

Red Hat System
Administration

Web-fundamental(<https://www.sololearn.com/certificates/CT-9GPAX8JC>)

React-Redux(<https://www.sololearn.com/certificates/CT-JVS2XV88>)

Java(<https://www.sololearn.com/certificates/CT-SSV3TEAB>)

python(<https://www.sololearn.com/certificates/CT-DOQ34MOI>)

NDG Linux Essentials
Professional Development

Introduction to Android
Studio from Simplilearn

LANGUAGES

Guragigna, Amharic and
Englishs
